We discussed and explored options available to your child and agreed to progress down the proposed treatment pathway. This may change on future clinical interventions, at which time I will further discuss with you as appropriate. This estimate is valid for ONE month from the date of this estimate and is based upon the information available at the point of generation. The deposit amount must be paid in full before the admission date. If the full deposit is unavailable as cleared funds at the point of admission the booking will be delayed or cancelled, with no reimbursment of expenses. The amounts above (excluding the deposit) are not fixed as the services above are a guide to the possible requirements and therefore any additional services required will incur further charges. It may be necessary for us to contact you during the stay regarding this account as the account must be kept in credit at all times to ensure that treatment remains uninterrupted. If an Intensive Care bed is required this will be charged at £8091 per night, High dependancy bed is charged at the tween £2614 and £3652 per night and Standard bed is charged at £1632 per night. Any balance remaining will not be returned until after at least ten working days after clinical discharge and can only be refunded by the original method of payment to the original source. Please call +44 (0) 20 7829 8612 or email preauth@gosh.nhs.uk if you wish to discuss further.
