Hospital	Memorial Şişli	Adress	
Physician Name	Prof.Dr. Serkan Keskin	Department	Oncology
Treatment Proposal	Treatment		

Physician's Medical Evaluation

Специалистът коментира, че пациента е с диагноза невроендокринен карцином в напреднал стадий и не е подходящ за извършване на оперативна интервенция. Професорът допълни, че пациента получава лечение, но въпреки това заболяването е прогресирало. Лекарят е на мнение, че пациентът е необходимо да бъде хоспитализиран за около 10 дни за да се направят допълнителни изследвания и консултациите с необходимите специалисти, за да се стабилизира общото му състояние и да се предприеме нов протокол на лечение. След допълнителните изследвания ще се планува точния план на подход, но на първи етап е важно да се запознаем детайлно с общото му състояние.

Аванс при хоспитализация е 15.000 EUR

При прегледа е желателно пациента да си носи всички налични документи и изследвания.

От изключително значение е по време на консултацията, с помощта на лекарите пациента да си изгради реални очаквания за резултата от лечението.

Допълнителните разходи, които могат да възникнат по време на процедурите, не са включени в цените изложени по-горе.

CV на Проф. Д-р Проф. Д-р Серкан Кескин

Гореизложените цени, са пресметнати по актуален валутен курс към днешна дата, и може да покажат различие към датата на Вашето лечение в нашата болница.

Група Болници Мемориал осигурява на своите пациенти екип от преводачи, които ще Ви съдействат по време на процедурите и безплатен превоз от/към Аерогарата или Автогарата.

Желателно е пациентът при идването си в болницата за лечение да НЕ носи банкноти от 500 Евро, тъй като не се приемат от лечебното заведение.
