## **Medical treatment at the University hospital Essen Preliminary invoice**

Patient: Gabriela Pavlinova Hadzhieva, DOB: 20.09.2009

Dear parents,

The University hospital Essen, Clinical Departments for Tumour Orthopaedics/Sarcoma Surgery can carry out the medical treatment of your daughter Gabriela. Based on the information we had remuneration was estimated for the following treatment:

Illness: Ewing sarcoma

Treatment: Surgery – femur resection, tumor prosthesis of the hip

Estimated remuneration: 65.000 EUR

The estimated duration of the treatment it about two weeks.

The amount includes the hospital services, the accommodation during the in-patient stay, effort international patients and the treatment by the chief physician.

We hope that you will understand that it is a prerequisite for the inpatient admission and medical treatment that the payment of the aforementioned amount to the following bank account is effected prior to the admission date.

Bank: Sparkasse Essen  
Account holder: Uniklinikum Essen  
Purpose: *Hadzhieva - FPS*  
IBAN: DE82360501050004900700  
SWIFT/BIC: SPESDE3EXXX  
VAT: DE119656585

This is not a final invoice; it is only cost estimation! About six weeks after completion of the inpatient stay you will receive a final invoice. However, it may well be that invoices in total differs from the advance payment because the actual course of treatment cannot be exactly predicted due to possible unforeseeable and inevitable effects on the invoicing (for example if more intensive care and artificial respiration are necessary, the complexity is higher and if complications occur). Thus, additional charges may become necessary.

If the amount paid in advance was too high the surplus will be transferred back.

If you have further questions please contact me by using the mentioned email address.

Best regards
