PROCEDURE: TREATMENT OF PROTONTERAPY C4**AMOUNT: # 103.756,05€ #**

Benefits that are included within this amount:

- Evaluation of the case.
 - Control visits during the treatment (Radiation Oncology)
 - Follow-up consultations during the first year.
 - Planning MRI.
 - Dosimetric calculation and verification.
 - Planning CT and control CT for adaptive treatment.
 - Proton therapy sessions.
 - Simple medication and material.
 - Nursing.
 - Anesthesia for each of the sessions.
- The amount of the budget is merely indicative, since it has been prepared taking into account the usual services that occur in this type of treatment. Therefore, taking into account the patient's own characteristics and state of health, the course of treatment and/or the decisions that may be taken by the doctors attending the patient, the final amount to be billed will be changed according to the actual consumption that has occurred during the therapeutic treatment. These modifications, determined in accordance with, among other concepts, the need for hospitalisation, therapeutic prescriptions and diagnostic tests, additional treatments and the consumption of drugs and materials, will be included in a new estimate, as they are not included in the initial estimate.

PAYMENT CONDITIONS:

- Before the first consultation and planning, the full amount of this quotation must be paid in full.
- ✘ Once the bank transfers have been made, proof of payment will be sent to the e-mail address protonterapia@quironsalud.es, indicating the patient's name in the subject line.
