Dear Sir / Madam

Re: Danail GRIGOROV
MRN 21743934
Dr Maria MICHELAGNOLI

The above-named patient is currently being treated for **Chondroblast osteosarcoma** at University College London Hospital (UCLH).

The treatment plan has not yet been finalised, but based on the information provided by the consultant, it is estimated that the following services will be required:

MAP Cycle	
Haematology	25,000
Imaging (GFR, MRI, Chest CT)	15,000
Medication	25,000
* Mifamurtide	160,000
Procedure (CVC insertion)	10,000
Chemo supervision fees	17,200
Follow-up consultations	2,400
Unplanned admissions - Group fees	8,000
Other specialities (physio, Occupational therapy, ...)	7,000
Inpatient accommodation - Paediatric	20,000
Inpatient accomodation - Unplanned admissions	24,000
Day case accommodation - paediatric oncology	33,400
Ward attender	3,000
TOTAL FOR FOUR CYCLES	350,000

*Mifamurtide 4mg powder for suspension for infusion
Administered 2 x per week for 12 weeks and then 1 x per week for 24 weeks (before and after chemotherapy initially) and continues beyond the end of the chemotherapy administration.

Fever is a common complication which may necessitate emergency admissions minimum 48 hours for antibiotics if neutropenic.
